June 24-28, 2013

Technische Universität Berlin, Germany

The 2013 Robotics: Science and Systems Conference will bring together researchers working on algorithmic and mathematical foundations of robotics, robotics applications, and analysis of robotic systems. The conference will be single-track, and the final program will be the result of a thorough review process to give attendees an opportunity to see the best research in all areas of robotics.

The programs will include invited talks as well as oral and poster presentations of refereed papers. The three-day main session will be followed by two days of workshops and tutorials. Workshop-only registration will also be available. Every effort is being made to keep conference expenses affordable, particularly for student attendees.

Submissions will be evaluated in terms of their technical quality, novelty, significance, and clarity.

Important Dates

Full Paper Submissions: February 1, 2013
Paper Notification: April 26, 2013
Preliminary Workshop Proposal: December 14, 2012
Final Workshop Proposal: February 8, 2013
Workshop Notification: March 15, 2013
Early-bird Registration Ends: May 15, 2013
